PROFILE

Experienced developer with a demonstrated history of working in the computer and network security industry. Skilled in Systems Administration, Linux, Java, Bash, and much more. Focused computer engineer working on a BS of Computer Science from Northern Arizona University.

EMPLOYMENT HISTORY

Information Security Student Worker, Northern Arizona University

Flagstaff

Oct 2016 – Present

Developed and maintained a phishing reporting application. Worked on best practices documentation used across campus. Dissected malware to determine purpose and security risk. Performed security analysis on university applications to determine risk.

Founder, Perfection Hosting

Jan 2013 – Jul 2016

Developed a backend service for provisioning, start/stop jobs, etc. Handled high-level support tickets for debugging and provisioning errors. Developed custom code for several clients.

Jan 2019 – Jan 2019

EDUCATION

Northern Arizona University, Bachelor of Computer Science

Flagstaff

Aug 2016 – May 2020

Acquired basic and advanced computer science knowledge from many courses. Was active in ACM, and worked on many projects outside of classes, such as a bus ETA aggregation app.

EXTRA-CURRICULAR ACTIVITIES

Hack Arizona

Tucson

Developed a fully functional shell application within 36 hours from scratch. Won a Raytheon embedded systems hacking challenge in first place.
